This certificate tells you whether this vehicle has been given the 'all clear' by hpi after a comprehensive search on the following registers:

#### VIN Match

Compares the Vehicle Registration Mark (VRM) against the Vehicle Identification Number (VIN), where your dealer has provided both, to try to detect a 'ringer' or 'clone', i.e. a stolen vehicle with a false identity.

#### Vehicle Identity

Does the vehicle match the description recorded by the DVLA? Details of all road registered vehicles are recorded at hpi and the hpi check reflects information recorded on the vehicle's official V5 document.

#### First Registration

hpi confirms the vehicle's first date of registration in the UK to help establish the true value of the vehicle.

#### Outstanding Finance

Over half of new cars are bought using finance agreements, making them the property of the finance company until the debt is cleared. hpi has over 75 million records on this register, against which this vehicle has been searched to highlight any outstanding debt.

#### Condition Alert

Has a car been 'written-off' by an insurance company following damage or theft? hpi registers 40,000 write-offs every month. Each hpi check searches over 14 million records to make sure the vehicle is not a total loss or now belongs to an insurer.

#### Condition Inspected

hpi has a unique register of former damaged 'write-offs' which have passed an inspection against a Thatcham approved standard to confirm the integrity of the repairs.

#### Stolen Vehicles

Any vehicle currently recorded by the police as stolen is highlighted in the search.

#### Security Watch

Some vehicles such as hire cars, are at special risk from fraud or theft. This register checks for vehicles that are flagged as 'at risk' and being offered for sale without the owner's consent.

#### Plate Transfer

Plate transfers are perfectly legal, but can be used to cover a dubious past. A hpi check will automatically pinpoint all plate transfers since April 1990 and make sure that none of the prior identities have anything to hide.

#### Mileage

The National Mileage Register (NMR), with over 200 million readings, can help reveal discrepancies in a vehicle's mileage history.
