The importance of this service schedule

The vehicle data (Fig. 1) attached to the inside cover of this service schedule help ensure that you can have the correct Volkswagen Genuine Parts[®] installed in your vehicle whenever required. They also determine which type of service applies to your vehicle.

- The service schedule confirms when the vehicle was first registered or delivered, when the delivery inspection was carried out, and thus the date from which your vehicle is covered by our warranty.
- The service schedule informs you when which service is due. The work to be carried out varies from vehicle to vehicle, but a qualified workshop will be able to explain exactly what work needs to be done.
- Your qualified workshop will document any service-related work in the service schedule.

Your service schedule should be kept in the vehicle wallet to ensure that it is at hand when you need it. Please remember to give this service schedule to the new owner if you sell your car.

⚠ WARNING

Inadequate servicing, no servicing at all, or failure to adhere to service intervals may result in breakdowns, accidents or serious injury.

- Have your car serviced by a qualified workshop.
- Observe the owner's manual.

📌 NOTICE

Volkswagen is not responsible for any vehicle damage caused by low-quality fuel, the wrong oil standard, inadequate servicing work or lack of availability of parts.

📌 Regular servicing of your vehicle not only maintains its value, it also ensures that your vehicle remains roadworthy and in working order. Servicing work should therefore be carried out in accordance with the maintenance table. Your qualified workshop will be happy to advise you.
