If diesel with high sulphur content is used, an oil change service with fuel filter replacement should be carried out every 7,500 km / 5,000 miles ⇒ page 7 ⇒ ①. Your Volkswagen dealer will be able to tell you which countries have diesel with a high sulphur content.

Before delivery, your vehicle was inspected according to factory guidelines. This ensures that driving will be a pleasure from the very beginning.

The agent will provide you with the following information when the vehicle is delivered:

- Running-in,
- Brake fluid change,
- Service intervals, in particular information on what constitutes severe operating conditions ⇒ page 6.

### ! NOTICE

The service life of the diesel particulate filter could be reduced considerably if diesel fuels with a high sulphur content are used.

**i** If LongLife engine oil is not used for filling and topping up, the service dependent on time / distance travelled applies ⇒ page 7. In this case, an oil change service will have to be carried out every 15,000 km / 10,000 miles or after one year.
