After Running all of our checks on this Audi it was noted there was a "Historic Mileage Discrepancy"

This was simply down to a "Input Error" By the MOT Station in 2017

We have contacted the DVLA to have there record amended and have attached to our PDF screen shots explaining and showing the obvious input mistake. This seen by the obvious spike in the mileage on the attachments

- * On 18 Feb 2016 the mot mileage was 54,207 miles
- * 1 Year later 7 April 2017 the mileage was 264,463 miles !! This should read as 64,463 miles
- * 3 April 2018 mileage is 70,564 miles

Our Experian Clear report shows as **1 Issue Found** this will be removed once the DVLA have made the amendments
