

A large, dense, black and white graphic consisting of a grid of small, repeating characters, likely a barcode or a heavily encrypted message. The characters are arranged in a regular pattern, with some variations in size and orientation, creating a complex, textured appearance. The overall effect is that of a high-frequency signal or a corrupted data stream.

WHAT IS A TYRE LABEL?

A Tyre Label is a snapshot of basic information for consumers purchasing motor vehicle tyres. (Much like the energy labels on white goods) Manufacturers of tyres for cars, light and heavy trucks must specify fuel consumption, wet grip and noise classification of every tyre sold in EU market starting in November 2012.
